

## **Ysgol Gynradd Grangetown Primary School** **Curriculum for Wales - September 2023**

*'Learning Together for a Brighter Future'*

**Our Vision:** *Grangetown Primary is a multicultural community. We include and respect everyone - celebrating our differences and sameness. Parents, governors, staff and children work together to ensure everyone is supported on their path to personal excellence.*

*Our learners must feel physically and emotionally safe, fit and happy, as these are essential precursors to learning. Possessing an enquiring mind, along with being literate, numerate and technologically able is essential, if our learners are to prosper in a rapidly changing world. Valuing the Arts and creativity, along with a passionate belief in the principles of democracy, tolerance, honesty and kindness is essential, if the world is to thrive. Our children are the future citizens and guardians of the world, and so we teach them to understand they have responsibilities and rights and their choices must be informed and ethical.*

*In our multilingual school, we strive to provide our children with the words to express their emotions, thoughts and ideas. We work hard, alone and together, to think and solve problems. Our greatest pleasure comes in supporting each other to achieve personal goals.*

### **Curriculum Rationale:**

An effective curriculum depends on three things:

1. effective teaching and learning - *pedagogy*;
2. effective, diagnostic assessment, and
3. the knowledge, skills and experiences delivered through the curriculum.

Our curriculum is fully informed by the mandatory legislation (must) and statutory guidance (should) from the Welsh Government. We use this information, along with the context of the needs of the children in Grangetown Primary, to construct a vision and purpose driven curriculum.

#### **1. Pedagogy**

Regard for teacher workload is key to ensuring practitioners have the capacity to deliver engaging, stimulating pedagogy, rooted in research, that supports progress. Planning processes have been overhauled to reduce bureaucracy, and unnecessary paperwork, whilst ensuring there is no detriment to children's progress. Teachers are consulted and contribute to this work, and this will be an ongoing practice at Grangetown Primary.

With effective teaching, all children can achieve their potential. At Grangetown, we continuously reflect on our practice and the pedagogical choices we make. We are committed to using research to inform this reflection. The 12 Pedagogical Principles have been used to inform our learning and teaching and this is further explained in our Learning and Teaching Policy.

#### **2. Assessment leading to progression**

We must provide for appropriate learner progression; and incorporate a range of assessment approaches to support learner progression. Therefore, we aim for our curriculum to be developmentally appropriate in order to drive learners' progression. We use knowledge of Child Development, the AoLEs what matters statements, the descriptions of learning, and the Progression Steps. We also use the Principles of Progression to inform understanding of children's progress. Our Curriculum provides for, over time, an increasing depth and sophistication of learning.

Teachers use a range of assessment tools daily. This may be assessing learning acquired - assessment of learning; or, assessing *for* learning - using assessment as a way to inform next steps. They use a wide range of tools to do this, for example: observations, listening to learners, marking of work, tests and quizzes.

Along with their progress, we also ensure we consider our children's attainment against national standards. The tests we use are diagnostic, and help guide the next steps for children's learning.

**Diagnostic assessments (see Learning and Teaching Policy for Annual Assessment Overview):**

When?	Wellbeing	English	Maths
<i>Termly</i>		Letters and Sounds (Phonics) Benchmarking (Reading)	CLIC, Learn Its (number based tests) SAFE (wider maths tests)
<i>Annually</i>	Pupil Attitudes to Self and School (PASS)	Spelling CAT4 Comparative Writing Progress Through English NGRT (Reading) WG Reading	Progress Through Maths CAT4 - number element. WG Number WG Reasoning
<i>As needed</i>	Place 2 Be SQD	Wellcomm Language Links Rapid Reading assessment Rainbow Readers assessment	Maths Factor

**3. Grangetown Primary School's Curriculum Aims:**

We are on a journey with our curriculum (**see Appendix 2**) and don't see it as a piece of work to be finished. Units of Learning will be designed with the cohort who will experience it, in mind. We will monitor, evaluate and review our curriculum, making the necessary changes to ensure children's needs remain at the heart and we meet all legislation.

The aim of our curriculum is to support the realisation of our school vision, and put our learners firmly on the path to achieving the four purposes (**see Appendix 1**). We have consulted with parents, children, governors and work with our cluster schools, our School Improvement Group (SIG) and wider Central South Consortium collaborative groups to ensure our curriculum reflects the needs of our children and drives them towards the four purposes.

We define our curriculum as being everything our children experience whilst at school. The teaching and learning they experience; the assessments they complete; the progress they make; the knowledge they learn; the skills they develop; and the experiences that further enrich and inform their understanding of the world around them. This is undertaken across a range of Learning Units which are:

- purpose driven;
- inclusive of all learners (**See Appendix 5**);
- informed by the AoLEs;
- developing cross curricular skills; and
- utilising cross cutting themes.

See **Appendix 3** for an overview of the curriculum and **Appendix 4** for a sample Learning Unit plan which exemplifies the above.

**Purposes:**

The 4 purposes of Curriculum for Wales are aimed at developing learners into:

- **Ambitious, capable learners who:** – set themselves high standards and seek and enjoy challenge – are building up a body of knowledge and have the skills to connect and apply that knowledge in different contexts – are questioning and enjoy solving problems – can communicate effectively in different forms and settings, using both Welsh and English – can explain the ideas and concepts they are learning about – can use number effectively in different contexts – understand how to interpret data and apply mathematical concepts – use digital technologies creatively to communicate, find and analyse information – undertake research and evaluate critically what they find and **are ready to learn throughout their lives.**
- **Enterprising, creative contributors who:** – connect and apply their knowledge and skills to create ideas and products – think creatively to reframe and solve problems – identify and grasp opportunities – take measured risks – lead and play different roles in teams effectively and responsibly – express ideas and emotions through different media – give of their energy and skills so that other people will benefit and **are ready to play a full part in life and work**

- **Ethical, informed citizens who:** – find, evaluate and use evidence in forming views – engage with contemporary issues based upon their knowledge and values – understand and exercise their human and democratic responsibilities and rights – understand and consider the impact of their actions when making choices and acting – are knowledgeable about their culture, community, society and the world, now and in the past – respect the needs and rights of others, as a member of a diverse society – show their commitment to the sustainability of the planet and **are ready to be citizens of Wales and the world**
- **Healthy, confident individuals who:** – have secure values and are establishing their spiritual and ethical beliefs – are building their mental and emotional well-being by developing confidence, resilience and empathy – apply knowledge about the impact of diet and exercise on physical and mental health in their daily lives – know how to find the information and support to keep safe and well – take part in physical activity – take measured decisions about lifestyle and manage risk – have the confidence to participate in performance – form positive relationships based upon trust and mutual respect – face and overcome challenge – have the skills and knowledge to manage everyday life as independently as they can and **are ready to lead fulfilling lives as valued members of society.**

### **Inclusion (see Appendix 5)**

Grangetown Primary School is an inclusive school that aims to meet the needs of all pupils. All children have access to a broad, balanced, stimulating and relevant curriculum whatever their ability or need. Inclusive provision is in all classrooms, delivered by all teachers. Assessment informs approaches which are targeted to engage and stimulate all children and ensure their needs are met. Wherever possible, children are supported and encouraged to take responsibility for their own learning. For those children who need it, we deliver a person-centred package of support in line with the Additional Learning Needs and Educational Tribunal (ALNET) Act.

### **Areas of Learning Experience (AoLE)**

- Expressive Arts.
- Health and Well-being.
- Humanities.
- Languages, Literacy and Communication.
- Mathematics and Numeracy.
- Science and Technology.

### **Cross Curricular Skills are:**

- Literacy Framework
- Numeracy Framework
- Digital Competence Framework

### **Cross cutting themes:**

- Religion, Values and Ethics (RVE).
- Relationships and sexuality education (RSE)
- Human rights
- Diversity
- Careers and work-related experiences
- Local, national and international contexts

### Teacher Planning:

- Appropriate Learning Units, designed for understanding and based on learners' needs, are co-constructed by year group partners. Due attention is paid to the mandatory and statutory requirements of the curriculum.
- Discrete planning is completed in, for example: literacy, Welsh, maths.
- The Learning Units are used by teachers to inform their daily learning and teaching activities.
- Consideration of the needs of the learners in class, is highlighted in stage 3 of the Learning Units.
- Teachers use PPA time to review children's progress against the stages of the Learning Units. With this knowledge, they refine the approach, and prepare engaging, effective learning and teaching resources to secure children's progress.
